11 IN RE: CARDTRONICS ATM FEE
12 NOTICE LITIGATION

13 Member Cases: 11-CV-0217 BEN (BLM)
14 11-CV-0236 BEN (BLM)
15 11-CV-1203 BEN (BLM)
16 11-CV-1208 BEN (BLM)
17 11-CV-2813 BEN (BLM)
18 11-CV-3056 BEN (BLM)
19 12-CV-0559 BEN (BLM)

CASE NO. 11-MD-2245 BEN (BLM)

**ORDER GRANTING MOTION FOR
SUMMARY JUDGMENT**

[Docket No. 17]

20 Presently before the Court is a Motion for Summary Judgment by Defendants Cardtronics
21 USA, Inc. and Cardtronics, Inc. (collectively, "Cardtronics"). (Docket No. 17.) For the reasons stated
22 below, summary judgment in favor of Cardtronics is **GRANTED** in member cases *Sandoval*
23 *v. Cardtronics USA, Inc.*, 11-CV-0217 BEN (BLM); *Christensen v. Cardtronics USA, Inc.*, 11-CV-
24 0236 BEN (BLM); *Johnson v. Target Corporation*, 11-CV-1203 BEN (BLM); and *Johnson v. Target*
25 *Stores, Inc.*, 11-CV-1208 BEN (BLM).

26 **BACKGROUND**

27 **I. PROCEDURAL BACKGROUND**

28 This consolidated action arises from nine separate lawsuits originally filed in Alabama,
California, Illinois, Mississippi, Tennessee, and Texas. The Judicial Panel on Multidistrict Litigation
consolidated the actions because of the extensive factual and legal overlap of each case. *See In re*

1 *Cardtronics ATM Fee Notice Litig.*, MDL No. 2245, 2011 WL 2118999, at *1 (J.P.M.L. May 26,
2 2011).

3 Cardtronics moves for summary judgment on four of the member cases that are included in this
4 multidistrict proceeding—*Sandoval v. Cardtronics USA, Inc.*, 11-CV-0217 BEN (BLM); *Christensen*
5 *v. Cardtronics USA, Inc.*, 11-CV-0236 BEN (BLM); *Johnson v. Target Corporation*, 11-CV-1203
6 BEN (BLM); and *Johnson v. Target Stores, Inc.*, 11-CV-1208 BEN (BLM). Being fully briefed, the
7 Court finds the Motion suitable for determination on the papers without oral argument, pursuant to
8 Civil Local Rule 7.1.d.1.

9 II. FACTUAL BACKGROUND

10 A. Cardtronics' Policies and Procedures

11 Cardtronics owns and operates over 45,000 ATMs across the United States. (Statement of
12 Material Facts ("SMF") [Docket No. 17-2] ¶ 1.) Cardtronics maintains a policy to ensure that posted
13 notices, called "Network Decals," are attached to its ATMs. (*Id.* ¶ 4.) The Network Decals serve two
14 purposes: (1) to provide a fee notice, and (2) to list the participating ATM networks that can be
15 accessed using the ATM. (*Id.* ¶¶ 6-8.) The Network Decals are attached to the ATMs using a strong
16 epoxy, which is applied to a sticker made from polycarbonate. (*Id.* ¶¶ 52-53.) The sticker has a strong
17 adhesive backing that will likely not become detached from the ATM without human intervention.
18 (*Id.* ¶ 52.)

19 All ATMs owned by Cardtronics are brought to Cardtronics' warehouse in Houston, Texas,
20 for pre-installation programming, configuration, and set-up ("staging"). (*Id.* ¶¶ 9-10.) A standard
21 form, titled "Cardtronics Prep/Re-Furb Work Order," lists the possible staging tasks that may be
22 required for an ATM. (*Id.* ¶¶ 12-13.) A Cardtronics employee in the Program Management team
23 reviews the bill of material and the specifications of the customer that will house the ATM, then
24 customizes the Work Order to include the proper components, quantity numbers, and model numbers.
25 (*Id.* ¶¶ 14-15.) Every Work Order that is generated requires that a Network Decal be placed on the
26 ATM. (*Id.* ¶ 16.)

27 Next, the Work Order is sent to a technician at the Cardtronics warehouse. (*Id.* ¶ 17.) The
28 technician uses the Work Order as a roadmap for what features are required for the ATM, and makes

1 changes to the ATM accordingly. (*Id.* ¶ 18.) Another Cardtronics employee, typically the shipping
2 and receiving clerk, will check off that the required tasks have been completed on the Work Order
3 before the ATM is shipped out. (*Id.* ¶ 19.)

4 After the ATM is staged, it is shipped to its permanent location for installation. (*Id.* ¶ 21.)
5 Cardtronics uses third-party vendors to install the ATMs on-site. (*Id.* ¶ 22.) The installation vendors
6 must use a standard Cardtronics form titled "Installation Authorization" as a checklist during
7 installation. (*Id.* ¶ 23.) The Installation Authorization contains a section relating to "Installation
8 Details," which asks the technician whether the Network Decal has been applied to the ATM. (*Id.*
9 ¶¶ 24-25.) The Installation Authorization also asks whether the technician has taken a picture of the
10 installed ATM. (*Id.* ¶ 27.)

11 The vendor then sends the completed Installation Authorization and pictures to Cardtronics
12 with its invoice for payment. (*Id.* ¶ 28.) Once the materials are received, the Merchant Scheduling
13 team reviews the form for completeness and for any discrepancies with the ATM. (*Id.* ¶ 29.) If there
14 is a problem, the Cardtronics employee works with the vendor to fix the problem. (*Id.* ¶ 30.) For
15 instance, if the Network Decal is missing, Cardtronics sends a Network Decal to the vendor to be
16 applied to the ATM. (*Id.* ¶ 31.)

17 If the ATM is owned by an independent store but will be operated under contract by
18 Cardtronics, a similar process is used. The staging process does not occur in the Cardtronics
19 warehouse, but rather, the ATM is shipped directly from the manufacturer to the installation site. (*Id.*
20 ¶¶ 32-33.) Cardtronics sends the third-party vendor the materials that would have been used during
21 the staging process, including the Network Decal. (*Id.* ¶ 34.) The vendor then stages and installs the
22 ATM, using the Installation Authorization form. (*Id.* ¶¶ 35-36.)

23 If an existing ATM is replaced, Cardtronics uses different terminology for the on-site process.
24 Instead of referring to "installation," Cardtronics refers to "reprogram." (*Id.* ¶ 37.) The ATM that is
25 already on-site is reprogrammed using the same basic process that is followed in the Cardtronics
26 warehouse. (*Id.* ¶ 39.) Cardtronics sends a Network Decal to the third-party vendor for application
27 to the ATM. (*Id.* ¶ 40.) The technician performing the on-site reprogram uses a form titled
28 "Reprogram Authorization." (*Id.* ¶ 41.) The relevant portions of the Reprogram Authorization are

1 similar to the Installation Authorization, but use different terminology. (*Id.*) The Reprogram
2 Authorization asks whether the “Surcharge/Network decal” has been applied. (*Id.* ¶ 42.) In addition,
3 the Reprogram Authorization asks the technician to take a picture of the installed ATM. (*Id.* ¶ 43.)

4 When Cardtronics dispatches vendors to ATMs for repair, maintenance, or cash replacement,
5 Cardtronics instructs its vendors to only complete the work authorized by Cardtronics. (*Id.* ¶ 55.)
6 Cardtronics does not instruct its vendors to remove the Network Decals, except where a new one is
7 provided to replace an older one. (*Id.* ¶ 56.)

8 Cardtronics stores electronic documentation for its ATMs in Doclink, a database system. (*Id.*
9 ¶ 60.) After an ATM’s installation documentation is reviewed by a Cardtronics employee, the
10 documents are added to Doclink using an identifying “Terminal ID” or “TID” for the ATM. (*Id.*
11 ¶¶ 60-61.) Cardtronics attempts to include photographs of the ATMs at installation with the
12 documentation. (*Id.* ¶ 62.) In addition, documents from the Cardtronics warehouse, such as Work
13 Orders, are scanned and saved into the warehouse server under the Terminal ID for the ATM. (*Id.* ¶¶
14 63-64.) Moreover, Cardtronics documents all changes made to an ATM in the field. (*Id.* ¶ 65.) If any
15 work is done to an ATM, including if the Network Decal is changed or removed, a ticket that specifies
16 the change to be made to the ATM will be electronically generated. (*Id.* ¶¶ 66-67.) The ticket is then
17 stored in the Cardtronics system and is retrievable by the Terminal ID. (*Id.* ¶ 68.) The only exception
18 to this procedure is for large-scale changes made to Cardtronics’ fleet of ATMs. (*Id.* ¶ 69.) Such
19 large-scale changes are documented using a spreadsheet. (*Id.* ¶¶ 69-70.)

20 Cardtronics’ procedures for ensuring that Network Decals are affixed to its ATMs are highly
21 successful. Cardtronics is currently auditing its ATMs in order to place Braille instructions on each
22 ATM. (*Id.* ¶ 44.) As part of this process, Cardtronics has instructed its vendors to check whether the
23 ATMs have Network Decals, and to identify those with missing Network Decals so that Cardtronics
24 can place new ones on those ATMs. (*Id.* ¶¶ 47-48.) Of the 8,877 ATMs that Cardtronics has visited,
25 87 were missing Network Decals. (*Id.* ¶ 49.) In other words, over 99% of the ATMs had Network
26 Decals. (*Id.* ¶ 50.)

27 ///

28 ///

B. Individual ATMs at Issue in the Present Action

In the four lawsuits relevant here, a total of six ATMs are at issue. Each of these ATMs will be addressed in turn.

i. ATM at Vons Store in San Diego, California (Sandoval Action)

The ATM at issue in the *Sandoval* action is located at a Vons store in San Diego, California (“San Diego ATM”). (*Id.* ¶ 71.) The Work Order generated for this ATM indicates that the task of applying a Network Decal to the ATM was checked off as accomplished. (*Id.* ¶ 72.) The completed Reprogram Authorization, dated January 2008, indicates that the Network Decal was on the ATM at the time it was reprogrammed. (*Id.* ¶ 73.) In addition, Cardtronics has pictures taken by the technician after the reprogram, which show the Network Decal affixed to the ATM below the cash dispenser. (*Id.* ¶ 74.) Cardtronics does not have any record of removing the Network Decal, or any record of instructing a vendor to remove the Network Decal. (*Id.* ¶ 75.)

ii. ATM at Costco Store in Temecula, California (Christensen Action)

One of the two ATMs at issue in the *Christensen* action is located at a Costco store in Temecula, California (“Temecula ATM”). (*Id.* ¶ 76.) The Installation Authorization for this ATM, dated March 2007, indicates that the Network Decal was on the ATM at the time of installation. (*Id.* ¶ 77.) In addition, Cardtronics has pictures taken by the technician after installation, which show the Network Decal below the cash dispenser. (*Id.* ¶ 78.) Moreover, Cardtronics had pictures of the ATM taken in 2011, which show white residue on the ATM, where the Network Decal had previously been. (*Id.* ¶ 79.) Cardtronics has no record of removing the Network Decal, nor any record of instructing a vendor to remove the Network Decal. (*Id.* ¶ 80.)

iii. ATM at Costco Store in Vista, California (Christensen Action)

The other ATM at issue in the *Christensen* action is located at a Costco store in Vista, California (“Vista ATM”). (*Id.* ¶ 81.) The Work Order for this ATM, dated December 2008, indicates that a Network Decal was applied. (*Id.* ¶ 82.) Pictures of this ATM, taken in January 2011, show white residue on the ATM where the Network Decal had previously been. (*Id.* ¶ 83.) Cardtronics has no record of removing the Network Decal, nor any record of instructing a vendor to remove the Network Decal. (*Id.* ¶ 84.)

iv. *ATM at Target Store in Memphis, Tennessee (Johnson Action)*

The first ATM at issue in the *Johnson-Tennessee* action is located at a Target store in Memphis, Tennessee (“Memphis ATM”). (*Id.* ¶ 85.) The Installation Authorization for this ATM, dated September 2005, states that the Network Decal was on the ATM at the time of installation. (*Id.* ¶ 86.) Cardtronics has no record of removing the Network Decal, nor any record of instructing a vendor to remove the Network Decal. (*Id.* ¶ 87.)

v. *ATM at Target Store in Germantown, Tennessee (Johnson Action)*

The second ATM at issue in the *Johnson-Tennessee* action is located at a Target store in Germantown, Tennessee (“Germantown ATM”). (*Id.* ¶ 91.) Cardtronics acquired this ATM from E*Trade Access, in a 2004 corporate transaction. (*Id.* ¶ 92.) Cardtronics does not possess the installation records for this ATM. (*See id.*) However, Cardtronics sent third-party vendors to each of the ATMs acquired from E*Trade within 90 days of the acquisition in order to make changes to the ATM processor. (*Id.* ¶ 93.) These processor changes were essential for Cardtronics to operate the ATMs. (*Id.*) The vendors applied the Network Decals at the same time that they made the processor changes. (*Id.* ¶ 94.) Cardtronics has been unable to locate documentation for the Germantown ATM from the relevant time period, as the work was done before Cardtronics began to use Docklink and documentation was kept in paper form. (*Id.* ¶ 96.) Cardtronics has no record of removing the Network Decal from the ATM, nor any record of instructing a vendor to remove the Network Decal. (*Id.* ¶ 97.)

vi. *ATM at Target Store in Olive Branch, Mississippi (Johnson Action)*

The ATM at issue in the *Johnson-Mississippi* action is located at a Target store in Olive Branch, Mississippi (“Olive Branch ATM”). (*Id.* ¶ 88.) The Work Order for this ATM, dated June 2008, indicates that a Network Decal was applied to the ATM. (*Id.* ¶ 89.) Cardtronics has no record of removing the Network Decal, nor any record of instructing a vendor to remove the Network Decal. (*Id.* ¶ 90.) Photographs taken in July 2010 show that no Network Decal is present, and no sticker residue is present. (Johnson Opp. [Docket No. 38], Exh. A.)

DISCUSSION

Summary judgment must be granted where the record shows “there is no genuine dispute as to any material fact and the movant is entitled to judgment as a matter of law.” FED. R. CIV. P. 56(a);

1 *see also Celotex Corp. v. Catrett*, 477 U.S. 317, 322 (1986). The moving party must “persuade the
 2 court that there is no genuine issue of material fact.” *Nissan Fire & Marine Ins. Co., Ltd. v. Fritz Cos.,*
 3 *Inc.*, 210 F.3d 1099, 1102 (9th Cir. 2000). When the moving party satisfies this burden, the
 4 nonmoving party must go beyond the pleadings to demonstrate specific material facts that give rise
 5 to a genuine issue. *Celotex Corp.*, 477 U.S. at 324. “These principles apply equally whether summary
 6 judgment is granted on the merits of the claim, or on an affirmative defense.” *Buttry v. Gen. Signal*
 7 *Corp.*, 68 F.3d 1488, 1492 (2d Cir. 1995); *see also Fox v. Citicorp Credit Servs., Inc.*, 15 F.3d 1507,
 8 1514 (9th Cir. 1994).

9 The Electronic Fund Transfer Act (“EFTA”) governs many types of electronic fund transfers,
 10 including ATM transfers. *See* 15 U.S.C. § 1693a(7). The EFTA “require[s] any automated teller
 11 machine operator who imposes a fee on any consumer for providing host transfer services to such
 12 consumer to provide notice in accordance with subparagraph (B) to the consumer (at the time the
 13 service is provided) of—(i) the fact that a fee is imposed by such operator for providing the service;
 14 and (ii) the amount of any such fee.” 15 U.S.C. § 1693b(d)(3)(A); *see also* 12 C.F.R. 205.16(b).
 15 Subparagraph B requires that notice be provided both on the machine and on the screen. 15 U.S.C.
 16 § 1693b(d)(3)(B); *see also* 12 C.F.R. § 205.16(c). The notice on the machine must state either that
 17 (1) a fee *will* be imposed, or (2) if there are circumstances in which a fee will not be imposed, that a
 18 fee *may* be imposed. 12 C.F.R. § 205.16(c). No fee may be imposed unless these notice requirements
 19 are met. 15 U.S.C. § 1693b(d)(3)(C); 12 C.F.R. § 205.16(e). Customers may recover statutory
 20 damages under the EFTA. 15 U.S.C. § 1693m(a).

21 Cardtronics does not dispute that the ATMs at issue here charged customers a fee, that it was
 22 required to post fee notices on its ATMs, or that such fee notices were missing from the ATMs.
 23 Rather, Cardtronics argues that it is shielded from liability under two affirmative defenses: the bona
 24 fide error defense and the safe harbor defense.

25 I. BONA FIDE ERROR DEFENSE

26 The bona fide error defense is applicable to the Germantown ATM, for which there is no
 27 evidence that a fee notice was affixed to the ATM. The bona fide error defense provides that “a person
 28 may not be held liable . . . if the person shows by a preponderance of evidence that the violation was

1 not intentional and resulted from a bona fide error notwithstanding the maintenance of procedures
 2 reasonably adapted to avoid any such error.” 15 U.S.C. § 1693m(c). Under § 1693m(c), therefore,
 3 a defendant is not liable for a missing ATM fee notice if: (1) the defendant maintained “procedures
 4 reasonably adopted to avoid” a missing notice; and (2) the lack of a notice was “not intentional,” but
 5 was a “bona fide error.”

6 First, there is no genuine dispute that Cardtronics maintains procedures reasonably adapted to
 7 avoid missing fee notices on its ATMs. Cardtronics has a policy to place a Network Decal on each
 8 of its ATMs. As discussed above, Cardtronics has implemented a multi-layered, redundant process
 9 to attach a Network Decal to each new ATM that it installs. A Cardtronics employee first applies the
 10 Network Decal to the ATM, following a customized Work Order. A separate Cardtronics employee
 11 confirms and documents that the required staging tasks, such as applying the Network Decal, have
 12 been completed before shipping the ATM. A third-party technician who installs the ATM on-site is
 13 required to follow a Cardtronics form that asks whether the Network Decal is affixed to the ATM.
 14 Finally, the technician takes a picture of the ATM, confirming that the Network Decal is in place. This
 15 procedure is highly effective. As discussed above, Cardtronics has found that over 99% of its ATMs
 16 have Network Decals in its ongoing audit of their ATMs. *See Puglisi v. Debt Recovery Solutions,*
 17 *LLC*, 822 F. Supp. 2d 218, 226-27 (E.D.N.Y. 2011) (“[W]hen attempting to show that he is entitled
 18 to the bona fide error defense, a debt collector need not demonstrate that its procedures for avoiding
 19 FDCPA violations are fool proof, but rather, must only show that its procedures constitute a reasonable
 20 precaution.” (internal quotation marks and alteration omitted)).¹

21 Second, Cardtronics has offered evidence to support the conclusion that any missing notices
 22 are not intentional, but bona fide errors. Cardtronics intends that each ATM have a Network Decal,
 23 and employs procedures designed to ensure that the ATMs will in fact have Network Decals. (*See*
 24 *SMF* ¶ 51.) Because the Network Decals identify the ATM networks that can be accessed at the ATM,
 25 Cardtronics has a strong business incentive to attach the Network Decals to the ATMs in order to
 26

27 ¹ The case law under the Federal Debt Collection Practices Act (“FDCPA”) is relevant to
 28 interpreting the EFTA because (1) the FDCPA uses the same language for its bona fide error defense
 as does the EFTA, and (2) the two statutes are next to each other in the Code. *See Johnson v. W.*
Suburban Bank, 225 F.3d 366, 378-79 (3d Cir. 2000); *Blackburn v. FEDCorp, Inc.*, No. 10-cv-726,
 2011 WL 1807631, at *4 (M.D. Ala. May 11, 2011).

1 increase use of the ATM. (*Id.* ¶¶ 7-8.) There is no evidence that Cardtronics removes the Network
 2 Decals without replacing them, and because the Network Decals are attached to the ATMs with a
 3 strong epoxy, they will likely not fall off on their own. (*Id.* ¶¶ 52-53.)

4 Plaintiffs have not offered evidence to rebut these facts. Accordingly, Cardtronics is shielded
 5 from liability by the bona fide error defense in regards to the Germantown ATM. *See Lewis v. ACB*
 6 *Bus. Servs., Inc.*, 135 F.3d 389, 401-02 (6th Cir. 1998) (granting summary judgment for defendant
 7 where plaintiff failed to rebut defendant's showing that error was unintentional).

8 II. SAFE HARBOR DEFENSE

9 The safe harbor defense is applicable to the San Diego, Temecula, Vista, Memphis, and Olive
 10 Branch ATMs, for which there is evidence that a fee notice was originally affixed to the ATMs. The
 11 safe harbor defense provides: "If the notice required to be posted pursuant to section 1693b(d)(3)(B)(i)
 12 of this title by an automated teller machine operator has been posted by such operator in compliance
 13 with such section and the notice is subsequently removed, damaged, or altered by any person other
 14 than the operator of the automated teller machine, the operator shall have no liability under this section
 15 for failure to comply with section 1693b(d)(3)(B)(i) of this title." 15 U.S.C. § 1693h(d).

16 The business records for the San Diego, Temecula, Vista, Memphis, and Olive Branch ATMs
 17 establish that Cardtronics applied the required fee notices to each of these machines. In addition,
 18 Cardtronics did not remove the Network Decals. Cardtronics documents the changes it makes to its
 19 ATMs, and has no record of removing the Network Decals on any of the ATMs at issue here.
 20 Cardtronics does not typically require that the Network Decals be removed and updated with new ones.
 21 (SMF ¶ 54.) Cardtronics also documents changes made by its vendors, and has no record of its
 22 vendors removing the Network Decals from the ATMs at issue. Through this undisputed evidence,
 23 Cardtronics has established that the Network Decals were removed by a third-party. *See Piontek v.*
 24 *Penn Sec. Bank & Trust Co.*, No. 10-cv-1038, 2011 WL 1002194, at *4 (M.D. Pa. Jan. 31, 2011)
 25 (photographs and affidavit stating that no one in the company would have removed the on-machine
 26 notice adequately established a defense under § 1693h(d)).

27 Plaintiffs have not offered evidence to rebut these facts. Accordingly, Cardtronics is shielded
 28 from liability by the safe harbor defense in regards to the San Diego, Temecula, Vista, Memphis, and

Olive Branch ATMs. *See Piontek*, 2011 WL 1002194, at *4 (granting summary judgment on safe harbor defense to an ATM operator where “defendant’s affidavit and photos tend to show that the required external notice was posted on the ATM in question and that the notice was removed by some third party”).

III. JOHNSON’S OPPOSITION

Plaintiff Sheryl Johnson argues that neither the bona fide error defense nor the safe harbor defense applies here. In regards to the bona fide error defense, Johnson first argues that this defense does not apply to missing ATM fee notices because a missing ATM notice is not a clerical error. A “clerical error” is the failure of a subordinate employee, given no discretion in his function, to follow his employer’s instructions. *Ford Motor Co. v. United States*, 157 F.3d 849, 860 (Fed. Cir. 1998) (clerical error requires that “a subordinate is given binding instructions on particular aspects of a task, no duty devolves upon him to exercise discretion or judgment in carrying out those aspects”). Here, Cardtronics has mandatory procedures that requires its employees and vendors to apply Network Decals to the ATMs, and its employees and vendors have no discretion in carrying out this function. Thus, any failure to initially place Network Decals on the ATMs at issue were clerical errors.

Second, Johnson argues that because the definition of “error” in Regulation E, 12 C.F.R. § 205.11(a),² does not list the failure to post a fee notice on the exterior of an ATM and such a failure is not analogous to any of the types of errors listed, the failure to post a fee notice is not an error. Regulation E, however, is inapplicable here. The definition of “error” in Section 205.11 is used only

² Section 205.11(a) defines error as:

- (i) An unauthorized electronic fund transfer;
- (ii) An incorrect electronic fund transfer to or from the consumer’s account;
- (iii) The omission of an electronic fund transfer from a periodic statement;
- (iv) A computational or bookkeeping error made by the financial institution relating to an electronic fund transfer;
- (v) The consumer’s receipt of an incorrect amount of money from an electronic terminal;
- (vi) An electronic fund transfer not identified in accordance with §§ 205.9 or 205.10(a); or
- (vii) The consumer’s request for documentation required by §§ 205.9 or 205.10(a) or for additional information or clarification concerning an electronic fund transfer, including a request the consumer makes to determine whether an error exists under paragraphs (a)(1)(i) through (vi) of this section.

1 in that section, which concerns a consumer's complaint to a financial institution about "errors" in a
2 particular fund's transfer. Regulation E does not addresses the "bona fide error" defense.

3 Third, Johnson cites *Jerman v. Carlisle, McNellie, Rini, Kramer & Ulrich LPA*, 130 S.Ct.
4 1605, 1624 (2010), for the proposition that the bona fide error defense is inapplicable to mistakes of
5 law. *Jerman* is inapposite here, as a missing fee notice in these circumstances is not a mistake of law.

6 Fourth, Johnson argues that a defendant must show with "reasonable certainty" how the error
7 occurred, citing an ALR article.³ Courts, however, have held otherwise. See *Mirabal v. Gen. Motors*
8 *Acceptance Corp.*, 537 F.2d 871, 877 n.8 (7th Cir. 1976), *overruled on other grounds by Brown v.*
9 *Marquette Sav. & Loan Ass'n*, 686 F.2d 608 (7th Cir. 1982); *Thomas v. Boscia*, No. 08-cv-42, 2009
10 WL 2778105, at *4 (S.D. Ind. Aug. 28, 2009) (holding that "even though the [defendant] is unable to
11 explain the exact cause of the failure of its procedures in this case, the Court does not deem that fatal
12 to the [bona fide error] defense.").

13 Fifth, Johnson argues that if a third party removed the Network Decal, this intentional act could
14 not be considered an error or mistake by Cardtronics. This argument conflates the bona fide error
15 defense with the safe harbor defense. The bona fide error defense applies when Cardtronics cannot
16 prove that it affixed a fee notice to an ATM; the safe harbor defense applies when a third party
17 removed a fee notice from an ATM.

18 Sixth, Johnson argues that because Section 1693m(c) requires a defendant to "maintain"
19 procedures reasonably adapted to prevent the error at issue, Cardtronics was required to have in place
20 an ongoing procedure to prevent missing fee notices over time, citing *Holsinger v. Wolpoff &*
21 *Abramson LLP*, No. C 05-02075, 2006 WL 2092632, at *5-6 (N.D. Cal. July 27, 2006). According
22 to Johnson, Cardtronics was required to maintain a procedure reasonably adapted to prevent the notices
23 from being removed or damaged, which would include a procedure to regularly inspect the ATMs and
24 replace missing notices. Johnson's argument, however, misconstrues the meaning of the term
25 "maintenance." As the Seventh Circuit explained, "maintenance" "means that . . . the proper
26

27 ³ James Lockhart, Annotation, *What Constitutes Truth in Lending Act Violation Which "Was*
28 *Not Intentional and Resulted From Bona Fide Error Notwithstanding Maintenance of Procedures*
Reasonably Adapted to Avoid Any Such Error" Within Meaning of § 130(c) of Act (15 U.S.C.A. §
1640(c)), 153 A.L.R. FED. 193 (1999).

1 procedures were followed time in and time out.” *Mirabal*, 537 F.2d at 879. Moreover, *Holsinger* in
2 fact stands for the proposition that a re-checking mechanism, satisfied by having more than one
3 individual involved in review, is required. 2006 WL 2092632, at *5-6. As explained above,
4 Cardtronics regularly followed its procedure to affix Network Decals to its ATMs through the staging
5 and installation processes. In addition, this procedure involved multiple employees ensuring that the
6 Network Decals were affixed to the ATMs.

7 In regards to the safe harbor defense, Johnson argues that in order to prevail, Cardtronics must
8 present affirmative evidence that a third party removed the notice, citing *Boecherer v. Burling Bank*,
9 No. 08 C 1332, 2009 WL 4544695 (N.D. Ill. Dec. 1, 2009), and *Drager v. Bridgeview Bank*, No. 10-
10 cv-7585, 2011 WL 2415244 (N.D. Ill. June 13, 2011). On the contrary, courts applying the “safe
11 harbor” defense do not demand that ATM operators prove the specific circumstances of the removal
12 of the notice; rather they allow the ATM operator to prove that it did not remove the notice itself,
13 leaving a sufficiently reasonable inference that someone else must have removed it. *See Reyes v. Cole*
14 *Taylor Bank*, No. 10-cv-2181, 2011 WL 3704705, at *3-4 (N.D. Ill. Aug. 22, 2011); *Piontek*, 2011 WL
15 1002194, at *4. Here, as explained above, there is no evidence that Cardtronics removed the notice
16 itself, leaving a sufficiently reasonable inference that someone else must have removed it.

17 In addition, Johnson’s authorities are inapposite. In *Boecherer*, the court held that it was not
18 a reasonable inference that a third party removed the notice because the notice was attached to the
19 ATM with “double-sided tape,” and there was evidence that the notice fell off on its own. 2009 WL
20 4544695, at *2, *6 (on “several occasions” the notice was “on the floor in front of the ATM”). In the
21 present case, however, Cardtronics used a strong epoxy to attach the Network Decals, so the Network
22 Decals would not have fallen off on their own. In *Drager*, while ruling on a motion for judgment on
23 the pleadings under Rule 12(c), the court held that discovery must be conducted before the court ruled
24 on the safe harbor defense. 2011 WL 2415244, at *8. The court declined to address whether a
25 defendant could establish the safe harbor defense by showing that it posted the notice and did not
26 remove it. *Id.* at *8 n.7.

27 Accordingly, Cardtronics’ motion for summary judgment against Johnson is **GRANTED** in
28 member cases *Johnson v. Target Corporation*, 11-CV-1203 BEN (BLM), and *Johnson v. Target*

1 *Stores, Inc.*, 11-CV-1208 BEN (BLM).

2 **IV. CHRISTENSEN'S AND SANDOVAL'S OPPOSITION**

3 Plaintiffs Gini Christensen and Joshua Sandoval do not address Cardtronics' arguments on
4 their merits. Rather, Christensen and Sandoval make a procedural request under Federal Rule of Civil
5 Procedure 56(d) for additional discovery to support their opposition.

6 The Scheduling Order established that the first phase of discovery in the instant action had to
7 be completed on or before January 6, 2012. (Scheduling Order [Docket No. 2], at 3 ¶ 6.) It required
8 that all discovery be served in time so that responses would be due by January 6, 2012. (*Id.*) Written
9 discovery therefore had to be served by December 7, 2011. (*See id.*) On December 8, 2011,
10 Christensen and Sandoval served Cardtronics with Plaintiffs' First Set of Interrogatories and First
11 Request for Production of Documents. (Golovach Decl.[Docket No. 40-1] ¶ 3.) On January 9, 2012,
12 Cardtronics served its responses to Christensen's and Sandoval's written discovery. (*Id.* ¶ 4.) In
13 response to each of the interrogatories and document requests, Cardtronics claimed that Christensen's
14 and Sandoval's written discovery "was untimely served pursuant to paragraph 6 of the Case
15 Management Conference Order Regulating Discovery And Other Pretrial Proceedings (Dkt. 2), and
16 that no response is therefore required." (*Id.*)

17 Christensen and Sandoval argue that because Cardtronics has not provided substantive
18 responses to their written discovery requests, they are unable to "present facts essential to justify the
19 opposition to the Motion." (Christensen & Sandoval Opp. [Docket No. 40], at 2.) Christensen and
20 Sandoval argue that the Court should grant them relief pursuant to Rule 56(d) ("If a nonmovant shows
21 by affidavit or declaration that, for specified reasons, it cannot present facts essential to justify its
22 opposition, the court may: (1) defer considering the motion or deny it; (2) allow time to obtain
23 affidavits or declarations or to take discovery; or (3) issue any other appropriate order."). In addition,
24 they argue that their written discovery was untimely because of a calendaring error, and such a
25 calendaring mistake falls within the parameters contemplated by Federal Rule of Civil Procedure
26 60(b)(1).

27 As explained above, the Scheduling Order established that the first phase of discovery in the
28 instant action had to be completed on or before January 6, 2012. Under Federal Rule of Civil

1 Procedure 16(b)(4), “[a] schedule may be modified only for good cause and with the judge’s consent.”
 2 Therefore, a party must demonstrate “good cause” for an extension of discovery. FED. R. CIV. P.
 3 16(b)(4); *Zivkovic v. S. Cal. Edison Co.*, 302 F.3d 1080, 1087 (9th Cir. 2002). Plaintiffs’ failure to
 4 conduct discovery is not a “good cause” to allow more time for discovery, especially where discovery
 5 closed two months earlier. *Weiland Sliding Doors & Windows, Inc. v. Panda Windows & Doors, LLC*,
 6 No. 10-cv-0677, 2011 WL 455896, at *1-2 (S.D. Cal. Feb. 1, 2011) (no good cause where party sought
 7 relief approximately one month after close of discovery); *Justin v. City & Cnty. of San Francisco*, No.
 8 C 05-4812, 2008 WL 544466, at *3-4 (N.D. Cal. Feb. 26, 2008) (no good cause where plaintiffs
 9 waited until end of discovery to seek depositions and delayed in seeking extension of discovery
 10 period).

11 In addition, Plaintiffs failed to timely move to compel Cardtronics to respond to their discovery
 12 requests. According to the Scheduling Order, any motion to compel was required to be filed by
 13 February 6, 2012. (Scheduling Order [Docket No. 2], at 3 ¶ 6 (“In addition, all discovery motions
 14 must be filed within thirty (30) days after the close of discovery.”).) Plaintiffs, however, did not
 15 request that additional discovery be conducted until they filed their opposition brief on March 5, 2012,
 16 a month after the deadline had passed. Their failure to move to compel Cardtronics’ discovery
 17 responses is a lack of diligence that bars their claim under Rule 56(d). *See Bank of Am., NT & SA v.*
 18 *PENGWIN*, 175 F.3d 1109, 1117-18 (9th Cir. 1999) (party’s failure to timely move to compel
 19 discovery, despite knowing about other party’s refusal to produce documents, was grounds to not allow
 20 additional discovery under Rule 56(f)).⁴

21 Christensen’s and Sandoval’s request for relief under Rule 56(d) fails for several reasons.
 22 First, Plaintiffs must make a motion under Rule 56(d) for a continuance and for leave to conduct
 23 additional discovery; they may not raise a request for relief under Rule 56(d) in an opposition brief.
 24 *Brae Transp., Inc. v. Coopers & Lybrand*, 790 F.2d 1439, 1443 (9th Cir. 1986) (“References in
 25 memoranda and declarations to a need for discovery do not qualify as motions under Rule 56(f). Rule
 26

27 ⁴ Rule 56(d) was formerly Rule 56(f). “Subdivision (d) carries forward without substantial
 28 change the provisions of former subdivision (f).” FED. R. CIV. P. 56, Committee Notes on
 Rules—2010 Amendment. Precedent under Rule 56(f) applies to Rule 56(d). *See Roberts v. McAfee,*
Inc., 660 F.3d 1156, 1169 (9th Cir. 2011).

1 56(f) requires affidavits setting forth the particular facts expected from the movant's discovery.
2 Failure to comply with the requirements of Rule 56(f) is a proper ground for denying discovery and
3 proceeding to summary judgment."); *see also Weinberg v. Whatcom Cnty.*, 241 F.3d 746, 751 (9th Cir.
4 2001) (affirming denial of Rule 56(f) request and finding that inclusion of request in opposition brief
5 was "plainly inadequate"). Here, Plaintiffs have not made a motion for a continuance or for leave to
6 conduct additional discovery, but rather refer to the need for additional discovery in their opposition
7 to Cardtronics' Motion for Summary Judgment.

8 Second, a party may only be granted relief under Rule 56(d) if the party has previously been
9 diligent in conducting discovery. *Cornwell v. Electra Cent. Credit Union*, 439 F.3d 1018, 1027 (9th
10 Cir. 2006) (affirming denial of former Rule 56(f) request because "plaintiff's prior discovery efforts
11 were not diligent"). Here, Christensen and Sandoval have not been diligent, as they have not timely
12 served discovery. As explained above, the Scheduling Order required that all written discovery be
13 served by December 7, 2011, in order for responses to be due by January 6, 2012. Although Plaintiffs
14 had seven months to serve discovery requests, Plaintiffs did not serve written discovery until
15 December 8, 2011, a day after the deadline. Because Plaintiffs have failed to take discovery, they may
16 not request additional discovery. *Brae Transp.*, 790 F.2d at 1443 ("Having taken no discovery,
17 [plaintiff] can hardly argue at this late date that the district court abused its discretion in ruling on the
18 summary judgment in light of the fact that [plaintiff] itself failed to pursue the procedural remedy
19 which the Federal Rules so clearly provided." (internal quotation marks omitted).)

20 In regards to Christensen's and Sandoval's invocation of Rule 60(b)(1), Rule 60 does not apply
21 here. Rather, Rule 60 applies to a "final judgment, order, or proceeding." *See* FED. R. CIV. P. 60(b)
22 ("On motion and just terms, the court may relieve a party or its legal representative from a final
23 judgment, order, or proceeding for the following reasons: (1) mistake, inadvertence, surprise, or
24 excusable neglect."); *Ahanchian v. Xenon Pictures, Inc.*, 624 F.3d 1253, 1260 (9th Cir. 2010). The
25 applicable rule here is Rule 16, as discussed above. *See Hoffman v. Tonnemacher*, No. CIV F 04-
26 5714, 2007 WL 2318099, at *1 n.1 (E.D. Cal. Aug. 10, 2007) (request to modify pre-trial order should
27 be brought under Rule 16, rather than Rule 60(b)).
28
